"TRANQUILIZER"

...join pages for full-sized plans

Diminutive little gassie for small fields, sport flight. Lot of fun to be had with an .010 or .020. Try larger prop to slow it to a putt-putt. Co-2 is also ideal. Extend nose a bit for rubber power. Or, delete the incidence, soup-up a bit, re-rig for ukile. Might be modified to a miniature R/C job.
