

Scaled Plans																
ORANGE shading indicates a high-quality, scaled plan is available in the Outerzone (OZ) website. The number indicates the OZ ID Number.																
GREEN shading indicates a scaled plan is available in one of the RCM Plans Threads at RCGroups (column headings are hyperlinks). The number(s) indicates the Post number(s). Bold numbers are posts in Elijah's thread.																
Unscaled Plans																
LIGHT BLUE shading indicates: 1) indicates that an unscaled image of a plan, or a copy of the article exists in the RCGroups threads, but that NO scaled plan is yet posted in the threads; or, 2) a unscaled images of a plans exists on James Hatton's Blog, unshaded hyperlinks in the same column point to articles without plans.																
YELLOW shading indicates the possibility of error.																
An unshaded row indicates there is currently no information in OZ, on the RCGroups threads, or in J. Hatton's Blog.																
Some plans appeared in the magazine without becoming part of the products offered by the plans service. Those plans have artificial plan numbers, beginning with 9000. When known, the issue month and year are recorded in the notes field.																
Last OZ ID	6357	Tier 1	6352													
Last RCM Thread post number	3000	Tier 2														
Last posting of this data	2846	3/6/2015
